WHISKY CAUSED THIS SHOOTING

(By Associated Press.)
SAN FRANCISCO, June 27.—As the result of a shooting affray in a Market street saloon tonight between sailors of the battleship fleet, two men were wounded, one of them seriously. H. A. Harris, hospital steward of the Georgia, is the man dangerously injured, while B. J. Harvey, chief gunner's mate of the Connecticut, is the other victim. Philip Becker, boatswain's mate, of the Illinois, did the shooting. In company with J. Francis Gunning, a nineteen-year-old member of the crew of the cruiser Brooklyn, Becker entered the saloon and ordered whiskey for both Harris and Harvey, who were standing at the bar, objected to Becker allowing Gunning to drink whiskey. Harris spoke to Becker and also requested the bartender to refuse to serve the youth. In the dispute following, the shooting occurred.

PADUCAH, Ky., June 27.—The first night rider conviction in this State was secured today when a jury returned a verdict of one year in the penitentiary in the case of Dr. E. Champion, of Benton. Champion, who is a prominent young physician of Lynn County, was accused of participating in a raid at Birmingham, Marshall County, last April, when John Cruggs, an aged negro, and his few months old granddaughter, were shot and killed. Several negroes were whipped at the time.

RUSSIAN BOAT HAS HIGH SPEED

NEW YORK, June 27.—Vasily Rebkoff, a Russian inventor, has arrived in America to exhibit his new motor boat to the United States Government. He asserts that with 12 horse power he can maintain a speed of thirty-one miles an hour and make the journey up the Hudson from this city to Albany in four and a half hours. Rebkoff says that his boat, which is twelve feet long and three feet beam, had traversed the roughest waters in Europe and he was going to make the experiment of making a journey in through the rapids of the Niagara River. The boat is built of wood fitted with pneumatic cushions to enable her to bound from one wave to another with ease.

SLUGGISH MARKET STILL CONTINUES

(By Associated Press.)
NEW YORK, June 27.—A dull, sluggish market continues to show the reluctance of the professional operators to follow transactions far from the price level. There was nothing in today's news to stir the market from its apathy. The bank statement revealed a surplus and reserve of over \$66,000,000, and explains the feeling of assurance of early provisions against all contingencies. Bonds were dull.

THEODORE BELL SELECTED AS THE TEMPORARY CHAIRMAN

Committee on Arrangements
for the Democratic National
Convention Gives Honor
to Californian.

(By Associated Press.)
DENVER, June 27.—Theodore Bell, of California, was today chosen temporary chairman of the Democratic National Convention by the committee on convention arrangements. There was no selection for the permanent chairmanship, this matter going over until a meeting of the full national committee is to be held. The names prominently mentioned in this connection, at present, are Representative Henry Clayton, of Alabama; Judson Harmon, of Ohio; Governor Joseph Folk, of Missouri; Senator Joseph Bailey, of Texas, is also strongly favored. The other appointments made by the committee on convention arrangements, which unquestionably will be made permanent, are as follows: General secretary, Urey Woodson, of Kentucky; assistant general secretary, Edwin Setton, of Washington, D. C.; sergeant-at-arms, Joseph I. Martin, of Missouri; chief doorkeeper, Eugene W. Sullivan, of Illinois; chief assistant sergeant-at-arms, J. C. Fern, of Indiana; parliamentarian, N. D. Crutchfield, of Kentucky; chaplain on the opening day, Rt. Rev. James Keane, Archbishop of Wyoming; official stenographer, M. W. Blumberg, of Washington, D. C. It is rumored that Roger C. Sullivan, of Illinois, who is chairman of the committee on convention arrangements, might head a fight against the election of Bell as chairman. The report is known to be well-favored by Mr. Bryan. The temporary chairman was elected unanimously within a few minutes after the committee met, without another name being suggested. The committee then took up the question of seating delegates and alternates already chosen from the Philippine Islands. After a brief discussion it was decided that the precedent established by the convention of 1904 of seating the Philippine delegates with alternates, without vote, should be followed. The National Convention in 1904 decided that delegates from the Philippines could not be received because the islands were then not a part of the United States; that while a procession composed of people delegates to the National Convention who are unable to secure tickets would be legally sent from there, are allowed to pass through the hall. A lengthy discussion over the appointment of tickets occupied the committee until it adjourned. No settlement was reached, and the entire matter is in direct accord with the matter went over until Tuesday at which time Bryan, as it was known before, when another meeting will be held. The demand for admission and Representative Henry D. Clay-tickets is unprecedented because of the tremendous pressure which is being brought upon members of the national committee for admission. It secured either position.

Syracuse Wins By Less Than a Length

(By Associated Press.)
POUGHKEEPSIE, June 27.—Swinging their sweeps with powerful strokes, which carried their slender shell through the water at all but a record pace, the Syracuse Varsity crew won the big four-mile race today for university eight-oared crews. They headed the Columbia by less than one-third a length and Cornell by a bare length at the finish line after one of the most hotly contested and most interesting regattas in the eleven years' history of collegiate racing on the Hudson course. Incidentally, Syracuse took from Cornell the trophy which is the token of this race, the Varsity challenge cup, presented in 1889 by Dr. Louis Seamon, to be held by the winner for one year. Columbia and Cornell rowed finely throughout the contest and pressed the winner hard in the last mile. Pennsylvania's eight made a pace for nearly three miles, and then went to pieces, finishing six lengths behind Cornell. Wisconsin was reckoned a contender until the three-mile mark was passed, when one man collapsed and put the Western crew out of the contest. Syracuse won also for the second successive time the race for university four-oared shells.

FAIR PLAY WINS RICH CLUB STAKES

(By Associated Press.)
SHEEPSHEAD BAY, June 27.—Before a big crowd of 15,000 persons August Belmont's Fair Play, carrying the top weight of 126 pounds, won the \$25,000 Coney Island Jockey Club stakes at Sheepshead Bay today. Hessian second, King James third. Time, 2:31 1-5 for one and one-half miles. This equals the track record made by Stallwart in 1904 and less than a second slower than the record for the distance made by Goodrich at Chicago in 1898.

MAKE WAR ON THE POOL ROOMS

NEW YORK, June 27.—The Jockey Club and race tracks have resumed in earnest today the warfare against the poolrooms. A censor was put in charge of the Western Union Telegraph wires inside the Sheepshead Bay Track, and nothing but newspaper reports, delayed, were sent out in the afternoon. The police raided a cottage just behind the back stretch at the Bay track and arrested two men. One was operating a telephone wire while the other was at the business end of a huge telescope. Two telephones were also seized. Inspector Flood took a peep through the telescope and threw up his hands. "Why," he exclaimed, "you can see a man pick up a pin." With the telescope it was possible to read the price signals made by confederates in the grand stand and also make out numbers on the saddle cloths, to say nothing of the colors worn by the jockeys. The men arrested gave the names of Al Opperman and W. E. Durgin. The latter was employed by the Davis-Payne Syndicate, which is supposed to control the poolroom business in the East. Both men were held for trial charged with aiding gambling.

ON VERGE OF UPRISING IN OLD MEXICO

Chihuahua Paper Says Army
Is Marching on Rich City--
Railroad Bridges Burned.

(By Associated Press.)
CITY OF MEXICO, June 27.—Up-risings in the northern part of the Republic have now become the subject of international correspondence. Communications from the Minister of Foreign Affairs were sent to the State Department at Washington today. This condition arose out of the fact that the raiders who shot up the town of Las Vacas yesterday are now on American soil claiming the protection of the United States. Vice-President Corral, in an interview, declared that the government has succeeded in unravelling the conspiracy which prompted the recent attacks on the towns of Viesca and Las Vacas, in which a number of lives were lost, much property destroyed and \$20,000 in cash secured by the looters. The whole trouble was caused, said the vice-president, by three irresponsible agitators and anarchists who are at present residing in the United States. These men, Enrique Flores Magón, of Los Angeles; Thomas Sarabia, also known as Thomas Lebrada, and Antonio Araujo, of Texas, recently appealed to certain of the criminal and ignorant element on the border states of Mexico, inciting them to raid certain designated towns for the purpose of robbing banks and government offices under a plea that funds could be thus raised for the cause of the alleged revolution. In the attack on Las Vacas fifteen men were killed. The government places absolutely no political significance or importance to these recent happenings for the reason that not one of the participants is a representative citizen.

IS LOOKING FOR A GOOD ANGEL

WASHINGTON, June 27.—The Democratic Congressional Committee is confronting a hard proposition in the matter of money to carry on the campaign, and Representative Lloyd of chairman, will go to New York early tomorrow morning for the purpose of breaking into some of the purses of Democrats in whose loyalty to the party he has confidence. The fact is the committee has begun its work two months ahead of scheduled time this year, and while it usually calls for money in September, it is starting its work so far advanced that it must now have funds or call a halt in the sending out of its literature. It has made extensive preparations which it is ready to put into effect in keeping with the early campaign projects. Mr. Lloyd today stated that he does not expect to have his campaign brought to a standstill, and believes the result of his visit to New York will be to allow him to go ahead with the execution of plans that have been made.
